GOVERNMENT **CROP REPORT**

Caused Wheat Market to be Zigzag and Erratic.

STATE WEATHER

Made Corn Follow Wheat In a Higher Course.

Chicago, June IL-Wheat pursued a zig-

of bullish government crop reports. Prices were forced higher and corn, aided by Wet weather in some of the corn states the bulls, followed after. Slumps came on the profit taking, but in the end July wheat was %%% higher. Provisions closed a slade to 37%c lower. Other space ulative markets had to drop back and give wheat place today. A good array of bullish influences were at tork. Cables were higher, there was strength on the renewal of wet weather in the central and northwestern states, but most important was the government crop report This document placed July condition of winter wheat at 76.1c, as compared to May's 76.4c, when an even Sie had been expected. The second surprise in the report was the claim that the spring wheat area was reduced 2811.() bushels from last year. The spring wheat condition was high at \$5.4c, but the sum of the report indicated a total yield for the year of about \$15,000,000 bushels, as against 738,000,000 bushels last year. This at once started covering and good buying. Northwestern receipts were small, and, although there seemed to be little effect on that score early, Minneapells eventually led the bulge with sharp advances. There was an increased volume of outside business, largely on the buying side. France was bidding for stuff, and the cable strength from Liverpool was largely due to the bullish French situation. July not fully held. Between them the two wheat opened kinke to kinke up at The to 71%c, and quickly mounted to 72%c. At this point the fair weather southwest had some effect. Liquidation for profits was in order, and prices tumbled back to 71%; Ultimately, however, the crop report had tember made fair gains but July rule strongest. Local receipts were 24 cars, contract grade. Minneapolis and Dulut reported 185 cars, making a total for th three points of 200 cars, against the las week and 359 a year ago. ceipts were 377,000 bushels, against 561,00 bushels last year. By order of President Roosevelt the manner in which certain papers in the Arnold case were extracted from the war department files and turned over to Senator Culberson for use in the senate is still under investigation. As yet there Is no proof that General Miles had any thing to do with the surreptitious use the documents. The president and Sec retary Root take the ground that they have no right to suspect General Miles or any other officer of such conduct, that they have a right to learn if they can the identity of the guilty person, no matter who he is. Senator Culberson when asked the direct question if Gen eral Miles had anything to do with th matter, directly or indirectly, declined to answer. It is quite apparent to all well informed observers that another Miles row is fast developing. A conserva tive Republican senator today said "We have not the slightest doubt that General Miles has been feeding all sorts of information into the Democratic funn here in the senate . But I for one do no to prove it on him. General Miles is too
